

BLOCKADE ESTABLISHED.

Washington, April 23.—Capt. Sampson reported to the navy department yesterday that he has established a blockade of the northern part of the southwestern coast of Cuba as far as Cienfuegos, but has not enough vessels to blockade the rest of the coast line.

THE SHENANDOAH

Washington, April 23.—It is reported here that the American ship Shenandoah has been captured by the Spaniards off the English coast. The Shenandoah is a wooden vessel.

ANOTHER PRIZE

Washington, April 23.—The government was satisfied today that the American fleet off the coast of Cuba captured the Spanish freighter Pedro today.

ALFONSO XIII.

Washington, April 23—It is thought the American fleet now blockading Havana, last night, captured the Alfonso XIII. This report has not been confirmed.

The Alfonso XIII would be a most valuable capture.

It is a steel protected cruiser of 5,000 tons, and was the Spanish man-of-war that lay near the ill-fated Maine at the time of the explosion.

THE CITY OF PARIS.

Washington, April 23.—It is reported that Spanish men of war are in pursuit of the American liner City of Paris which left Southampton yesterday with 150 passengers and a large load of ammunition for New York.

SATURDAY, APRIL 23, 1898

The total earnings of 120 railroads

for the month of March aggregate

\$46,580,676, a gain of more than 15

per cent. over March, 1897, and the

largest gain, with one exception,

noted since the improvement in business

activity immediately following the

election of President McKinley.

Railroad managers are still complaining

of that "war famine," which set in

immediately after the election of

President McKinley, and which even

the activity of car manufacturers

of the country seems to have been

unable to meet, a condition in marked

contrast with that prevailing during

the operation of the Wilson tariff law.

"Railroad tonnage continues heavy.

On western roads, east-bound

shipments are large, but west-bound

shipments on many lines exceed east-

bound. The movement West is largely

in heavy groceries, iron structural

work, railroad supplies, furniture,

carriages, engines, boilers, and heavy

machinery, materials for street

improvements and building material,

including lumber."—From Dun's

Review, April 16.

Here is a quotation from Dun's

Review, of the latest date, which

speaks volumes for the condition of

labor in the United States under the

provisions of the new tariff law, even

in the face of the war prospects: "Labor

troubles are out of the reckoning

at present. Mills generally have large

orders ahead and nothing clouds bright

prospects except the hesitation in placing

more orders in a time of extreme anxiety."

SECRETARY TREASURER, of the New

Orleans Cotton Exchange, in a recent

report, confirms the statement, published

some weeks ago, that the cotton

yield for last year was something in

excess of eleven million bales, which is,

by far, the largest cotton crop ever

produced in the United States, being

double that of 1880, and 50 per cent.

greater than that of 1895. This enormous

increase in the production, in view of the

fact that the United States is the principal

producer of the world, accounts for the

low price which still prevails for this

one of our staple products.

Gold continues to pile up in the

treasury and in the hands of those

who have been making sales of our

merchandise abroad during the past

year. The amount in the treasury

now reaches, in round numbers,

\$180,000,000; the orders of gold for

import during the past six months

have run at the rate of about a mil-

lion dollars a day, and the amount in

circulation is now \$125,000,000 in

excess of the amount in circulation

at the date of the Chicago convention

of 1896, while the gold production of

the world is increasing with greater

rapidity than ever before, exceeding

in 1897 that of any preceding year.

While that of 1898 promises to be

still greater.

The commercial community of India

is joining with its government in

urging that the British Parliament

appoint a committee to devise a plan

for the complete establishment of the

gold standard in India. The long and

exclusive use of silver, coupled with

the fact that the rich are growing richer

and the poor poorer. People who

lived fifty years ago, and can remember,

know that the so-called poor class

live better today than the rich did then."

"It is now known and has been

publicly stated on the floor of the

senate that if war had been forced

three or four weeks ago, the United

States would not have been fully pre-

pared. It is not now ready, but the

rigorous measures which have been

put into operation in the last few

weeks have achieved most desirable

results. There is still, however, con-

siderable ammunition and other sup-

plies on the way to this country or in

process of manufacture, and a few

days' more time is almost essential

from the military and naval point of

view." The foregoing from the

Washington Post, of April 18th, is

of itself sufficient reply to the criti-

cisms which have been made upon

President McKinley's action in re-

gard to our relations with Spain, and

is only one of a series of facts which

the public is now beginning to recog-

nize as the true cause of what many

were inclined to look upon as unne-

cessary delay or a desire to avoid de-

finite action.

The proposed war loan is to be

put in the most convenient form for

absorption by the masses. A bill has

been formulated by Chairman Dingley,

of the Ways and Means Com-

mittee of the House, after consulta-

tion with Secretary Gage, of the

Treasury Department, which pro-

poses the issuance of \$500,000,000

of bonds in sums of fifty dollars and

multiples, the plan of issue being so

arranged that subscriptions can be

received through postoffices, Govern-

ment officials, banks, or by sending

checks direct to the Secretary of the

Treasury for such sums as persons

wish to invest in these securities,

ranging from fifty dollars up-

ward. There will be no possibility of

a reiteration of the charges made

on a former occasion that bonds are

issued in the interest of corporations

and syndicates, Secretary Gage hav-

ing given assurance that in case the

amount of the loan, all subscriptions

below \$1,000 will be filled in full and

only the larger ones scaled down.

These lines may to some people

seem very strange ones to open the

society news with; but if the society

people and also all those who read

the daily papers and sundry who do

not would only put into practice

these simple little lines they would

be far better and far happier and I

believe the world would be improved

by it and if nothing else we would all

learn to be more sincere, to say the

least.

BEST SPRING REMEDY FOR THE CHILDREN.

The Perfect Health of a Large Family Is Due to the Use of
Paine's Celery Compound.

Worcester, Mass., March 5, 1898.
Wells Richardson & Co., Gentlemen:
Myself and family form a first-class example of the health-giving qualities of Paine's celery compound. Every spring we use this valuable remedy, and it has kept my children well and strong. I believe that it is better to take steps to keep well rather than to wait till one is sick. The good health of my family and freedom from doctor's bills and the wisdom of taking Paine's celery compound.

Every time I have a chance I speak in praise of Paine's celery compound, knowing it to be superior to any other remedy. Yours very truly,
HARRY THURGOOD.
Publisher of American Handman. Here's a whole family.
Husband, wife and children made well and kept well by Paine's celery compound.

The pre-eminence of Paine's celery compound over all other remedies.

especially as a spring invigorator and blood purifier for every member of the family, from the youngest to the oldest, could not be better illustrated than in the case of the Fremont family of Worcester, Mass.

It is to be remembered that not one-tenth of all the magnificent cures fairly due to Paine's celery compound ever get beyond the knowledge of the immediate family; that, in fact, few people have any appreciation of the number of families throughout the United States where Paine's celery compound is kept constantly on hand, and is being taken, or has been taken, by some of its members.

Paine's celery compound has already done an enormous work. It has saved lives. It has saved health. It has saved homes.

It is not beyond the reach of the most modest household, while moderate expenditure will procure nothing else so effective.

Paine's celery compound, the

remedy that makes people well, is within reach of all. As frequently happens in the spring, the entire family begins to feel "run down," and to suffer with the hardest disease in the world to diagnose—the trouble they have when they say, "Doctor, I don't feel well." The advice of hosts of competent physicians is to use Paine's celery compound, the one known spring remedy that restores lost nervous energy, creates an appetite, purifies the blood, and builds up the strength of the entire system.

Nervousness, headaches, thinness, pale faces and poor appetites among children come from the same causes that produce rheumatism, neuritis and debility in older persons—from poor blood and insufficiently nourished nerves. Paine's celery compound is the first, last and only remedy used in intelligent, prudent homes, where pains are taken to get only the best in so vital a matter.

U. S. COURT.

H. B. Stephens and Others, vs. Admiralty, Receiver Deaver.
Whereas, a libel was filed in the district court of the United States at Paducah, Ky., on the 23rd day of March, 1898, by H. B. Stephens and J. A. Campbell against the steamer Beaver, her engines, tackle, apparel, furniture and owners thereof, alleging in substance that said steamer is justly indebted to them for services as seamen, etc., in the sum of \$200. That said steamer is justly indebted to them in said sum, that same has never been paid, and says process against said steamer Beaver as per said libel, and that said steamer may be condemned and sold to pay said claims, with costs and expenses.

There is a man in Beaton who has never been fatally struck by patriotism. It is a laughable story told on him is true. He was a candidate for postmaster of the place, but like one or two of his rivals, was unsuccessful, as the administration saw fit to give the position to another man. As disappointed candidates usually are, he was a little sore, but never let any one know anything about it.

The other day Postmaster Cole met him, and the topic branched was that of war.

"I suppose you are going to join the army," the postmaster remarked. "It was perhaps natural, as everybody says he is going, whether he is or not."

"No, I am not going," was the unexpected reply.

"Not going?" was the surprised rejoinder.

"No, not going."

"Why?"

"Well," explained the man, "I offered my services to my country once not long ago and they were rejected, and I don't propose to do it again."

The value of punctuation should be more extensively learned by those telegraph operators who do not understand it. An error in punctuation in one of yesterday's dispatches misled many people.

The dispatch stated that "Our boat Nashville captured Spanish vessel Buena Ventura; gun boat is on her way with the prisoner."

The operator punctuated it as follows: "Our boat Nashville captured Spanish vessel Buena Ventura gun boat. Is on her way with the prisoner."

The only difference was that the last one made it appear that the Spanish vessel was a gunboat instead of a merchantman, when a period or semicolon properly placed would have conveyed the right meaning.

Patriotism came near causing trouble between an old soldier and a young man last night, on Broadway.

As the procession passed the latter was heard to remark that about six of them would make good soldiers. The veteran was standing near and chanced to overhear the assertion, and was boiling over with indignation in an instant. Stepping up to the man, who was a stranger, he shook his fist in his face and shouted so everybody could hear him:

"You're a liar, sir, and no man would make such a statement as that would make a soldier himself."

The stranger was puzzled, and the last heard of him, they were searching under the sewers to see where he had gone. At last accounts he had not been found.

In going this is peace the pos

vantage the Beneficiaries are attempting to take in the matter. Every one should secure a family as soon as possible, for, from present indications, it will come in very handy in a short time.

"I came around to have that little piece corrected," quoth the hero of this story as he entered.

As one will readily guess, the scene of this story is laid in a newspaper office. That is the only place on earth where they have to correct "pieces."

"What piece was that?" asked the managing editor.

"That piece about me being in a buggy with that lady when the buggy was broken in the roadway."

"Weren't you in it?"

"No, sir; I was not."

"Well, I'll just make the correction. I guess the reporter mistook the horse for you."

And after the man got outside, he saw the point.

It looks strange that in a city of 25,000 inhabitants, it is hard to get up even one company to defend the country. It is more than probable, however, that when it becomes necessary Paducah will not be behind in the matter of organizing troops. Wait until some of our ships get worsted in a battle with the Donos, then you'll see patriotism to beat the band. There will be enough volunteers here alone to fix Spain's clock for her for all time to come. There are several hundred veterans who would not hesitate to at once offer their services. People have not yet been aroused to the seriousness of the situation, and when they do, there will be as much criticism of a surplus of patriotism as there is now a complaint of a lack of it.

Judge Greer tells the following story on the late Judge Caswell Bennett. Years ago up in Smithland, Livingston county, he was practicing law. He had a client named Patrick McFarland, whose nationality was evident from more than one of his characteristics. He did a great deal of work for Patrick, and Patrick would always thank the lawyer and add:

"Shure, an Misher Bennett, O'll bring yez the fad die nixt toime O'cum to town."

The next time he came to town the Judge promptly nailed him. Pat would then say, with a smile that could not be questioned as to its sincerity, "Shure, an yer honor, O' forger die fad. O'll bring it die nixt toime O'cum to town, hegorra!"

Thus he would put it off from time to time, until it became evident to the judge that his client did not intend to pay him.

Finally, after numerous promises had been made and broken, Pat went to court again. The judge was again on his trail, and when he saw him across him:

"Well, Pat, did you bring that fee?"

"Foith, an' Misher Bennett, O' forgot it die toime. O' daad! But, shure, an' O'll bring it to yez die nixt toime I cum to town."

"Pat, I don't believe you intend to pay me that fee," said the judge, "and I'm going to take it out of you here."

"Shure, an' O'm obliged to yez, Misher Bennett," promptly responded Pat, as he began to remove his coat.

"An' O'll pay it that way. O' will. An' O'll live ye right now to do all one law business; O' will, be Jas."

"That's all right, Pat," interrupted the lawyer, in alarm, "I was just joking. That's all right; I didn't mean it."

Pat put his coat on again, and always after that had Judge Bennett for a lawyer, although he never paid a fee.

The other lawyers said the judge knew from experience he could not let it any time he wanted to.

Rowlandtown Is to Have the Improvement by Fall—Mail Service in Paducah

Is to Be Extended in Various Parts of the City to Accommodate the Public.

There is a probability that the people of Rowlandtown, who have for some time been clamoring for better mail facilities, that they will in a few months have free delivery.

Postmaster Fisher has taken the matter up and has been forwarded the instructions to make a report to the department at Washington at once, but it is probable that the new service cannot be secured for several months yet, or until the next appropriation is made.

There is every assurance that the entire mail service all over town will also be extended as soon as the proper steps can be taken to do it.

GUN CLUB.

Reorganization for the Season Effected Last Night.

The Paducah Gun Club met in Mayor Lang's office last night and reorganized for the year. A resolution was passed in effect that any member detected in the act of shooting game out of season be debarred from taking part in any of the club's shoots, and be expelled from the club.

The following officers were elected for the ensuing year:

Frederic Hoyer, president; J. C. Piper, vice president; F. C. Burnett, secretary; A. E. Anspacher, treasurer; E. K. Kashi, captain; Geo. H. Robertson, "syndicate master;" T. J. Moore, scorer; H. Hughes, official referee.

The first shoot will be held next Friday afternoon at La Belle park.

Rev. S. R. Cotter will fill the pulpit at the Trimble-street Christian church tomorrow morning, subject, "Building on the Same Foundation." Evening subject: "The Witness of the Spirit." All are cordially invited.

There will be services as usual at all the churches.

The Twenty-fourth regiment of colored soldiers from Montana passed through Nashville, Tenn., the other day en route to the South. While at the above city a restaurant keeper said to some of them: "What are they sending you fellows south for, you can't fight?" A colored soldier replied, "Well, I'll just show you about that," and he hit him so hard that he lost all interest in surroundings and had not recovered when the military train left the city.

The engagement to play "Cast Upon the World" has been postponed indefinitely.

POLICE COURT.

The Dugan-Welsh Case Continued Until Monday.

There was but one line assessed in the police court today. This was against Coby Blackman. He was fined \$5 and costs for a simple breach of the peace.

The case against Thos. Boaz, which has been on the docket for over a month, was again continued on account of absent witnesses. Geo. Miller is one of them, and is the prosecuting witness, claiming that the defendant struck him in the head with a mallet.

The case against James Dugan and Miss Anna Welsh was continued until Monday on account of absent witnesses. It seems that it was the young lady instead of her mother who struck Dugan.

The grand jury made its final report this afternoon, bringing in fifteen indictments, none of which were made public. They are for selling liquor to minors, keeping assignation houses, and gaming.

The petit jury was discharged, and there are in addition to the above named cases a large number in which indictments were returned at this term of court that had to be continued.

The case against Lem Hill was turned over to Judge Tully for trial. The indictment against Mr. J. K. Greer will not effect policy holders in his company.
